

PARENT INVOLVEMENT

EXCEPTIONAL EDUCATION IN FLORIDA

Feeling lost? We can help!

The Florida Diagnostic and Learning Resources System (FDLRS) is pleased to announce the launch of the new **Parent Involvement Website**.

The site is designed specifically to assist parents as they navigate the exceptional student education (ESE) process, from Pre-K through transition to college and/or career. This helpful site provides valuable information and resources related to ESE services and students with disabilities.

On the site you'll find success stories; information geared to various grade levels; contact lists for school districts, parent centers, and related agencies; a glossary of terms; and more!

Success Stories

Glossary

Resources

- **Pre-K**
- **K-12**
- **High School**
- **After High School**
